

in a word... inspired

We draw on references  
from all around us;  
the curve of a limb,  
the geometry of a snowflake,  
the work of our own creative heroes.

Whatever the source,  
it's all about great design.

That's what inspires us.

**in awe**

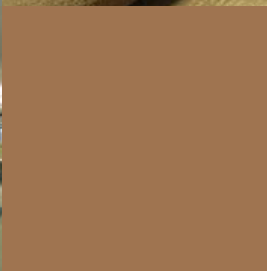

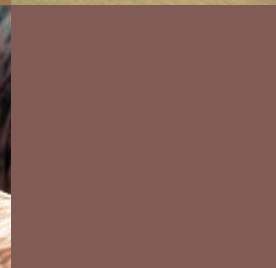

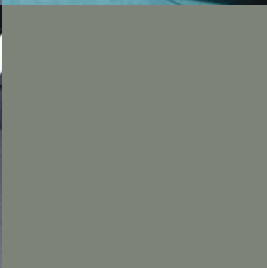

We're passionate  
about our carpets.  
We create great designs  
then figure out the  
best way to produce them.

It's a bit radical.  
It doesn't make our lives easy.

But we think it's worth it.

**in love**

We have an eye for colour.  
We understand what blends and tones.

We know a slight variation in shade  
is the difference between looking OK  
and being spot on.

That's why we create colour palettes  
of such subtlety and sophistication.  
It's what gives our carpets the wow factor.

in harmony

You can see and feel  
the difference.

Take a close look.  
It's about texture and colour.  
We like to harness the odd flash of creative genius  
and we aren't afraid of a little originality.

That's what makes us stand out.

in depth

Quality speaks for itself.  
You can't fake it or add it on afterwards,  
it has to be in-built.

That means up-engineering at  
every stage of the process without  
skimping or compromise.

We don't take the cheap option,  
the short cut or the safe choice.  
And, we never will.

**in built**

We're on a journey to sustainability.  
A place where we no longer inflict  
environmental damage on a fragile world.

It's easy to say the right things, do nothing.  
Difficult to make the hard choices.  
In time, we'll all make the trip,  
much better to make an early start.

We're already on the road, see you there.

**in practice**

We believe in high-tech systems  
and old-fashioned customer service.  
That means pulling out the stops,  
going the extra mile and  
bending over backwards.

We want to make our customers happy.

What better reason for you to do  
business with us again?

**in control**

Find out more about our  
commercial carpets at  
[www.quadmod.com](http://www.quadmod.com)  
but remember there's no  
substitute for a close look  
at the real thing.

Absolutely none.
